"Give a man a fish and you feed him for a day; teach a man to fish and you feed him for a lifetime". Jan Shikshan Sansthan (JSS) has materialised this proverb among more than 1 lakh people in Malappuram District of Kerala State since its inception in 2006 onwards. A community, which was mostly driven by the patriarchal rules, has broken the barriers and marched towards social/economic freedom through basic learning and vocational training. The community, majority of them are below poverty line, were only witnessed occasional financial aid from few individuals and organisations as a relief from their plight until JSS has started its activities in the region. The stigma in the earlier stages were many, including the reluctance from the side of tribes about education, religious sanctions, shyness for resuming learning in a mature age, etc. JSS addressed each of these issues as separate cases and to encourage the adults to start a new beginning in their life. JSS has also developed a culture among their beneficiaries to join in various voluntary activities and societal renovating initiatives from the side of JSS has received appreciation from various corners.

Mobilization is basically a process in which we contact and reach community to identify and select beneficiary or the trainees for training programme. Time and again we have experienced that "Community outreach and mobilization are an important and challenging activity in the entire programme and it plays a very decisive role in the success of the programme. Hence, considering mobilization as one of the strongest pillars of skill ecosystem, JSS follows a defined strategy and approach for mobilization

The graph is revealing the role of different agencies in the mobilization process of selected students in the skill training courses under the action plan in the year 2022 and 2023. The graph explicit that majority of the students are mobilized by JSS Social Media (39%), followed by Kudumbasree members (29%). Other remaining candidates knew about the course through newspaper (15%), friend and relatives 9%.

Strategies for mobilization

Publicity

The Programme officers and field workers of the organisation are also engaged in the mobilization activities. During mobilization our mobilisers show the live footage of Vocational Training centre and training activity in the field to all the parents so that they can see and assess the facilities we are providing. This activity also creates a lot of reliability among the parents and enthusiasm among the candidates as they can directly connect with the people now.

Mobilization through Placed students

During mobilization we also connect the parents and possible candidates with our already trained and placed students with the coordination of JSS. These students share their experiences, their personal journey and their achievements. Since we try to connect with the candidates who belong to the same place, this whole activity brings a lot of authenticity and reliability among the parents and candidates.

Meetings with Community Key Persons

We have also started meeting and training the community representatives such as Corporators, Women SHG leaders, Anganwadi workers, Asha Workers and Grama Panjayath Presidents, Ward members etc. Ultimately these key people become our contacts and resource who mobilize the students for the training program

Registration

Beneficiaries admitted only after the individual counselling sessions because JSS need to reach the accurate persons and responsible government and to public. In the section we had a direct conversation with each students to know their attitude, aptitude etc. We also explained them about the course, the benefit of the course, advantage for them in future, scope of the course etc. We also utilized this session for clearing all their doubt about the education and the career.

Counselling

The selected candidates were called for a meeting after registration. A counselling session was conducted to make them aware of the seriousness of skilling. They were also informed of the various rules and regulations to be followed during the course period. The overall nature of the training and the advantages by this including Govt. Of India Certification and Placement were elaborately dealt with. This was to make sure that they were thoroughly prepared for undergoing the training and the benefits followed. These sessions were handled by the JSS Programme Officials.

One of the key factors for the success of a training depends on its infrastructure which has an important role. The JSS gave due attention to make the training centre an easily accessible place for the beneficiaries with the support of the Local body representatives, Kudumbashree members or social organisations. The area and seating capacity to accommodate the twenty candidates were assured initially. The availability of drinking water, ample toilet facilities etc.were also assured. The overall arrangements in each centre were informed to the Director through the Due Diligence form for verification and approval. The sanction for the commencement of the training is passed on the basis of this. The support of most of the local body representatives were extended timely in the form of space allotment for the working of micro units formed through JLGS and SHGs.
